

OUR GREEN APPROACH

ISTOREGREEN ISN'T JUST OUR NAME—IT'S OUR MISSION

We're committed to having the lowest possible impact on the environment and to our role as the self-storage industry leader in environmental sustainability.

OUR BUILDING IS UPCYCLED

A Brooklyn fixture since 1908, the iStoreGreen facility was a warehouse prior to being converted into a contemporary self-storage space in 2008.

IT'S (100% RENEWABLE) ELECTRIC!

Our facility is powered by 100% renewable sources. We're certified by **Green-E**, the nation's leading renewable energy certification program and we're a certified **EPA Green Power Partner**.

LOW-IMPACT ON NATURAL RESOURCES

Our Co-Gen system utilizes excess heat to warm other areas of the facility. We also are the first storage facility to feature a solar water heater.

ISTOREGREEN'S GREEN INITIATIVE

We're passionate about reducing our carbon footprint and being green pioneers. This devotion is front and center in every decision iStoreGreen makes from our building to our packing materials. Join our journey to conserve the environment when you store with iStoreGreen—the largest green business (by size) in all of NYC!

- 100% of our electricity comes from renewable sources.
- We have **Green-E** certification.
- We are a certified **EPA Green Power Partner**.
- We upcycled the reclaimed wood from our facility's remodel to build benches, desks and shelving.
- Our on-site retail center offers **eco-friendly** packing materials like biodegradable packing peanuts, repurposed shredded paper and boxes, and more.
- We share our **green living ideas** booklet with customers and the community.
- Our marketing materials are printed on recycled paper with soy ink.
- We proudly plant a tree in honor of our customers through **The Nature Conservancy**.
