Security and Controls

- Strong security safeguards
- E-verification

GET MORE DONE

How it works

With this cloud-based solution, you can run payroll in just three steps: create checks, pay your employees, and review and submit. It handles all your federal, state, and local payroll tax filings and ensures your payments are sent on time. Plus, it gives you access to robust reporting.

Use the Applicant Tracking and Employee Onboarding systems to post jobs, track your interview process, and eliminate paperwork for a fast and compliant hiring process. You can also track your Worker's Comp insurance premium based on payroll runs, and use HR advisory to help implement employee training, coordinate benefits, leaves of absence, and more.
