

Why Give

At St. Mary's Healthcare System for Children, we believe in possible. We never give up. Every day, we help create and witness new beginnings and miracles for our patients—and the families who love them. But we can't do it alone.

Big hearts help little patients every day at St. Mary's Healthcare System for Children. It takes a community of supporters to help children with medically complex conditions and their families heal and thrive. Big impacts are achieved with every donation—no matter how little.

As a nonprofit healthcare organization, we rely on the generous support of big-hearted friends of St. Mary's like you—from individuals to large corporations and everyone in between—so we can provide the programs and services, treatment, and advocacy only St. Mary's Healthcare System for Children can deliver.

Your support will not only provide funding for vital programs and services that make it possible for us to provide children with the best care possible—it will give our amazing little patients a future filled with miracles—and that's priceless.

How You Make a Difference

Every dollar, every dime, every penny, and every minute of time you donate makes a big difference—and makes miracles happen every day. The population of children with medically complex conditions grows 5% every year—and so does our community's commitment to give them the continuum of care and services that will help them heal—and let them to thrive. Let's find out what we can accomplish—together.
