Details:

Parfum Prive Perfume by Georges Rech, In today's world, a woman can be both modern and timeless. That's why today's woman wears parfum prive by georges rech. An elegant scent apropos of every atmosphere, its top notes of peppery bergamot and tangy red fruits work in tandem to produce a singular introduction. This unique impression gives way to a more traditional and feminine arrangement of rose, violet, and jasmine. From these floral heart notes, we reach the surprisingly earthy, but ultimately sensual, base of leather, musk, and vanilla, making this a perfume fit for any and every occasion. \*\*
