

Let us help you stay on track financially.

FINANCIAL WELLNESS

At Arlington Community Federal Credit Union, we're with you. That's why we're dedicated to empowering our members—and neighbors—with the financial wellness programs and tools they need to thrive. From in-school branches run by the student leaders of tomorrow to guiding small business owners with big dreams, financial wellness starts here.

In-School Branches

Through a longstanding partnership with Arlington Public Schools, our in-school branches are operated by APS students. The students act as tellers and perform some of the same tasks actual ACFCU tellers do, teaching them the importance of savings and banking from a young age. It's a great and unique life skill that will pay dividends on more than just their financial futures.

Financial Workshops

We offer our financial expertise to a number of groups throughout the Arlington community who ask us to discuss a variety of personal finance topics. Taking the time to serve them serves us, because an educated community is an empowered community.

FINANCIAL WORKSHOP TOPICS

- Banking Products & Services
- Budgeting
- Identity Theft
- Credit Scores
- Saving

Homebuyer Seminars

We hold workshops to help first time homebuyers and experienced homebuyers get into their next home.

Small Business Program

Brunch & Business

We partner with Arlington Economic Development and the Arlington Chamber of Commerce to offer this free quarterly educational program for small business owners and entrepreneurs that arms them with the skills and knowledge they need to achieve success.

Are you looking for a financial education opportunity?
