

First Instinct Blue by Abercrombie & Fitch Cologne. Meek men need not apply. First Instinct Blue is a cologne for men who know who they are and what they want. A truly spectacular showing of power, this fragrance kicks things off with the floral and spice combination of bergamot, the nutty—yet woody—cardamom, and crisp and refreshing apple. From this fresh beginning, it transitions to the surprisingly subtle notes of floral lavender and mint- and pine-reminiscent rosemary, followed by a more intense showing of pepper. Finally, the masculine base notes bring this scent home with the darkly-sweet tonka bean, the rich and warm addition of amber, and the creamy, yet wood-based finish of sandalwood.
